TECHNICALLY ADVANCED IGNITION LEADS

MAGNECOR PART NUMBER EXPLANATION:

Refers to N° of Cylinders eg: (2/3/4/5/6/8 cyl)
(For 10 & 12 cylinder engines substitute the N° 1)

Refers to Cable Size
(7=7mm/0=8mm/5=8.5mm)

47123

Unique Reference Number

KEY TO APPLICATION NOTE NUMBERS:

Please also refer to the pictures at the bottom of the page.

PLEASE NOTE: AMENDED & NEW LISTINGS IN 'BOLD'						
146 1.7i 16v DOHC	334.01	1994-97	N/A	40512	£ 40.85	N/A
155 Q4 2.0i Turbo DOHC 16v	672.03	1992-97	N/A	40435	£ 46.97	47435
155 T/spark 1.8i / 2.0i Bv	671/2.02	1992-97	N/A	40406	£ 73.10	47406
155 T/spark 2.0 16v		1992-96	N/A	4067	£ 74.72	4767

Applic.
Note Numbers

- Screw-in type distributor cap (spark plug lead/cable, with no boot or terminal, is pushed into a hole in the distributor cap, the lead/cable is then locked in place by a pointed screw from the underside of the cap. Refer: to picture below (DDB101))
- Only 7mm sets will fit through guide tube / please call.
- This set has SAE / post / male fittings on the distributor and/or coil or coil pack.
- This set has a 'pick-up-sensor' (impulse sensor) on lead no. 1, 4 or 6, already fitted by Magnecor. These sets are only available in 7mm, 8mm and 8.5mm size cable.
- This set is for acorn-type distributor caps / coils. Magnecor can make sets in 7mm or 8mm cable (Ref: picture below).
- Coil length variable - please call.
- Cables are routed through a rectangular plastic guide, 7mm sets will replace existing genuine set.
- Coil is mounted on the inner wing and the coil fitting is DIN / Conventional.
- Coil on inlet manifold.
- This set utilises OE resistor type plug boots and therefore the cable used is unsuppressed silicone insulated 7mm tin-plated copper core.
- This set supplied with all distributor, and spark plug boots and terminals attached, partially assembled sets also available please call.
- On the Lucas DDB101 distributor caps Magnecor are able to enlarge the holes to take 8mm and 8.5mm cable. Please call for further information.
- Distributorless / Coil pack or Coil Over (Direct Fire / DI) type ignition systems - i.e. **No Coil Lead and in some cases there are less leads in the set than would be normally. e.g. 2 leads for a 4 cylinder and 3 for a 6 cylinder.**
- This set has M4/Pin fittings at the distributor / coil / coil pack.
- Coil only has M4/Pin fitting.
- M4/Pin fittings on distributor, SAE / Post / Male fitting on coil.
- IMPORTANT:** The OE lead set comes with an impulse sensor (inductive pick-up) attached to one lead of the set. Magnecor do not supply the sensor for this set. Please enquire if your engine has one. We can use the original sensor, but we will need to obtain the original lead to do so.
- SAE / Post / Male fittings on distributor, conventional fitting on coil.
- The manufacturers OE lead set for these vehicles have 5mm diameter cables (majorities of vehicles have 7mm). Magnecor make replacement sets in 8mm & 8.5mm diameter cable with the correct fittings, although they may not resemble the OE type. Magnecor may be able to supply a 5mm OE replacement set, please enquire.
- This set has a 'SAE / post / male' fitting on the coil.
- Tower diameters can be either 15mm or 18mm diameter requiring different boot sizes for sealing.
- This set has the 'acorn' type fittings at the distributor cap and coil. Refer to the picture below.

Part numbers and vehicle applications:

All characters/prices in 'Bold' are either amendments or new additions to the catalogue. This will help to identify additional information about our various lead sets so as to ensure you order the correct set for your customer.

This catalogue lists cable sets for vehicles available in the UK and Europe, although we list a number of non-UK/Europe models. We have tried to be as exact as possible in our applications (with description and lead set accuracy) but there may be some differences in vehicle models between various countries.

If you require leads for a vehicle located outside of the UK/Europe, or your vehicle or engine has been privately imported into the UK/Europe, or if you need a custom lead set, please be prepared to provide as much information as possible about the application at the time you contact us. We also have an ordering guide, which gives instructions on how to measure leads etc. - please contact us if you would like one. Or can be found on our website.

The part number for some vehicles has "refer" listed - this means either we plan to add a set in the future and are leaving space in the catalogue, or there is something special about the set that we have to discuss with you at the time of ordering. It may also mean 'refer to a pictorial area of the catalogue'.

Some sets are only available in our KV85 Competition 8.5mm cable, even though the original size is 7mm. We do this because these engines sometimes experience serious EMI problems (particularly on modified engines) and KV85 Competition 8.5mm cable is the best choice.

Most late model Toyota and Mitsubishi engines, are supplied with 5mm diameter original cable. We do not manufacture a 5mm cable because we have found the only way to get proper EMI suppression, sufficient insulation and performance for modified engines is to use larger diameter conductors and insulation. Any engine with original 5mm cable will require some extra work to correctly fit and loom our larger size cables.

The part numbers used in this catalogue may be different to the part number sold by some stockists, who use their own part numbers on our box. **Our USA and Australian assembly plants use different part numbering systems to the UK.**

On-line version of this catalogue:

You can download a version of this catalogue from our web site (<http://www.magnecor.co.uk>)

This file is in PDF format and requires the free Adobe Acrobat Reader (see link on our site).

You have permission to include the PDF catalogue as a download on your web site as long as you do not modify it in any way and you provide a link to our web site for updated versions.

Technical or vehicle application advice:

We are always willing to help with technical or vehicle application questions; please feel free to contact us by telephone, e-mail or fax.

PLEASE NOTE:

- All lead sets are supplied with numbering sleeves and cable separators where applicable.
- All sets are made to standard manufacturer specification - please advise if the coil and/or distributor have been relocated, modified or changed.
- Engine codes (not engine numbers - although may be part of the engine number) are very important, please supply the code when ordering.
- High temperature plug boots are supplied as standard on certain sets, should you require them please contact us for verification or prices.
- For R-100 10mm Racing sets, please call Magnecor for information on price and availability.
- Black nylon lead/cable separators are available in 2, 3 and 4 hole versions.
- There is no minimum order for any item.

MS Excel version of this catalogue:

You can also request a copy of the catalogue in MS Excel format. Please call Magnecor.

FORD PICTORIAL REFERENCE

Zetec engines basically fall into two different types:

If you have a customer who is unaware of what type of engine he has, ask which side the inlet and exhaust is situated. **Zetec E** has the inlet facing the bulkhead and the exhaust facing the front. The **Zetec S** has the reverse configuration. The major problem is the conflict of the 1.6 sized Zetec E & S engines as both were fitted in the Fiesta.

There are now 3 generations of sealing type spark plug boot to refer to when ordering your sets (see pictures and dimensions below).

PLEASE NOTE: AS EARLY AS 1996 FORD INTRODUCED A SECOND GENERATION TYPE IGNITION COIL/PACK ON THE ZETEC E & S ENGINES, THAT REQUIRED A DIFFERENT BOOT/TERMINAL COMBINATION. AS IT IS DIFFICULT TO ASCERTAIN WHICH COIL/PACK AND SPARK PLUG BOOT TYPE IS FITTED TO THE VEHICLES AT THE MODEL CHANGE-OVERS (i.e. BUILD DATES). WE HAVE PROVIDED A PICTORIAL PAGE TO HELP YOU VERIFY WHICH SET TO ORDER FOR YOUR VEHICLE.

For the following table refer to the pictures below:

1	Zetec E -	1st Generation coil pack and 1st generation plug boot - Magnecor part no: 4_299
2	Zetec E -	2nd Generation coil pack and 1st generation plug boot - Magnecor part no: 4_298
3	Zetec S -	1st Generation coil pack and non-sealing plug boot - Magnecor part no: 4_239
4	Zetec S -	2nd Generation coil pack and 1st generation plug boot - Magnecor part no: 4_374
5	Zetec S -	2nd Generation coil pack and non-sealing plug boot - Magnecor part no: 4_394
6	Duratec	2nd Generation coil pack and 2nd generation plug boot - Magnecor part no's: 4_470 & 4_471
7	Zetec SE	2nd Generation coil pack and 3rd generation plug boot - Magnecor part no's: 4_494 & 4_495

**FORD 1st GENERATION

2nd Generation

Fin diameter
27 mm

RENAULT PICTORIAL REFERENCE

Due to production date/model over-rides, Magnecor are unable to clarify the type of Ignition Systems/lead sets used on the various Megane 1.6i SOHC 8v engines. Please refer to the pictures below to verify which lead set your customer requires, then refer back to the application/part numbers under the Manufacturer for the prices.

Part Number:
4_232

Part Number:
4_375

Part Number: 4_444

TOYOTA PICTORIAL REFERENCE

Below are pictures of Toyota distributor caps, 7mm (pic C) and 5mm (pics A & B).

Picture A shows the 'clip' type connectors (90 degree and straight) found on the 5mm diameter OE (Yazaki branded) cable/lead sets.

Pictures B & C show you the differences between the distributor caps to help verify which set will need to be ordered. Lead sets 4_236, 4_415 will suit distributor cap B. Lead set 4_102 will suit distributor cap C.

Beware: Some vehicles may be fitted with a non-OE lead set which can disguise which lead set was fitted originally. IT IS BEST TO REFER TO THE DISTRIBUTOR CAPS AND INFORMATION SUPPLIED TO VERIFY WHAT SET YOU REQUIRE.

5mm type cap shown above with OE connectors

B) 5mm type distributor

Note: Lugs for clip fittings on 5mm type cap and note smaller diameter terminal/cavities

C) 7mm type distributor

Note: Larger terminal holes/cavities for 7mm type cap and note absence of lugs

SUBARU PICTORIAL REFERENCE

Please refer to the pictures below to verify which lead set you require, then refer back to the application/part numbers under the Manufacturer (Subaru).

BMW CARS											
Note: Magnecor sets for BMW's can be fitted through the one or two part rectangular cable retainers if ordered in 7mm cable. We can fit cables into the one piece cable retainers at extra cost but we suggest that the cables are not fitted into this tube, as they are a major cause of cable failure.

FORD											
PLEASE NOTE: AS EARLY AS 1996 FORD INTRODUCED A SECOND GENERATION TYPE IGNITION COIL/PACK ON THE ZETEC 'E' & 'S' ENGINES, THAT REQUIRED A DIFFERENT BOOT/TERMINAL COMBINATION. AS IT IS DIFFICULT TO ASCERTAIN WHICH COIL PACK AND SPARK PLUG BOOT TYPE IS FITTED TO THE VEHICLES AT THE MODEL CHANGE-OVERS (ie Build Dates), WE HAVE PROVIDED A PICTORIAL PAGE TO HELP YOU VERIFY WHICH SET TO ORDER FOR YOUR VEHICLE. PLEASE REFER TO PAGE 3 AND CHECK THE VEHICLE BEFORE ORDERING. THANK YOU.

VAUXHALL and OPEL											
Please question your customers about the terminal fittings used on their vehicle. (i.e. conv./post/pin). Some vehicles have conventional fit distributor cap and pin type coils etc. Another common problem is the vehicle has been fitted with the incorrect distributor cap at some stage during a service or repair i.e. it has a conventional fit type, where it should have a pin fit type. This obviously causes a lot of problems as a lead set is also fitted at the same time to match the incorrect distributor cap.											
Engine codes and application notes are the only method we use to recognise the correct lead set for your car - please use them.

SALES TERMS

All sales either cash, cheque (cleared) or prepaid (by MASTERCARD, VISA, DELTA, SWITCH OR SOLO). To keep the cost of its products at a minimum Magnecor Europe Ltd. does not operate credit accounts. In any event, title to the goods shall remain with Magnecor Europe Ltd. until payment has been received in full.

FREIGHT

All goods shipped by post or courier, customers may nominate which service they prefer.

MINIMUM ORDER

There is no minimum order for any item.

RETURNS POLICY

No goods will be accepted as returns without Magnecor Europe Ltd's approval. Unauthorised returns are subject to refusal. Magnecor Europe Ltd. will determine the final count and disposition of returns.

Returns are limited to 3% of current annual purchases and returns are subject to a handling and repackaging charge. Magnecor Europe Ltd. can review these limits and charges in special cases if there is a valid reason.

All returns are to be returned by prepaid carriage.

Magnecor Europe Ltd will not accept returns of customer products (made to customer's specification), products not in merchantable condition, products with component parts missing or for any obsolescent items (as determined by Magnecor Europe Ltd.).

Returns are also not accepted for any items not manufactured or sold by Magnecor Europe Ltd. or any item that has had component part/s replaced by item/s not made or sold by Magnecor Europe Ltd.

LIMITED 10 YEAR WARRANTY

Lead sets/cables are guaranteed for 10 years subject to the following conditions:

Magnecor Ignition cables will be replaced or repaired free of charge if the product should fail for any reason other than abuse, accident, negligence, improper installation, alteration or failure attributed to original engine design, engine maintenance (or lack thereof) or engine modification. Warranty applies only to the original purchaser and is limited to replacement or repair of the suspected failed cable and does not include labour charges for removal or replacement. Cable/s should be returned together with proof of purchase to any authorised Magnecor stockist or Magnecor itself for authorisation for replacement or repair.

WARRANTY POLICY

Under the terms of the Magnecor Europe Ltd. warranty and those available under law, Magnecor Europe Ltd. will not accept warranty claims for items that cannot be determined to have failed by tests in its factory.

Furthermore Magnecor Europe Ltd. cannot accept responsibility for failure of the lead set due to incorrect fitment, specifications or misuse/abuse of the lead set.

From experience, Magnecor Europe Ltd. have found that in many cases warranty claims are due to improper fitting of leads to an engine. The most common being that ignition leads are not properly engaged with the spark plug, distributor cap or ignition coil fittings.

LIABILITY

Magnecor Europe Ltd. will not be held responsible for any loss or damage howsoever caused by the use or misuse of its products.

This price schedule supersedes all previous price schedules, prices and specifications are subject to change without notice.

Magnecor Reference Chart

This Reference Chart can be used to reference all Magnecor sets. Reference by substituting: "0" for 8mm cable; "5" for 8.5mm cable; "7" for 7mm cable for the second digit of any set number listed. Not all sets are supplied in all cable types, please look at the relevant listing in the application guide, or in the price list, to see if a set is listed in the cable type you want. For example: our set number 6_90 is only available in the 6790 style.
